In my schema, the political Left is godly, the Right Godly. This reflects the historical fact that both Hitler /Mussolini and Marx/Lenin detested God but became gods of personality cults. The Right corresponds to theocracies. The center belongs to those few societies, as America of the Founders, in which deities are kept at a distance by the Rule of Law. America as founded was the greatest gift to mankind since Jesus strode the earth. Sadly, both were rejected by men who knew not what they did. Both died and only One would be resurrected. In today s political landscape, George Washington would be considered a Far Right extremist, such that young people can hardly recognize a true Conservative when they encounter one. Yet the thinking that went into our founding produced the wealthiest, most humane society the world has ever seen. What does a modern Conservative think? What musings run thru such a person s mind? Meditations of a Classic Liberal presents the kind of down-to-earth, common-sense reflections on life in Obama s America that characterize many Conservatives today. Here also is our language as used in modern America, from Shakespeare to standard English to Ebonics to vaguely-Appalachian. Language is art, tool and toy, used in these pages in sardonic, often delightful prose.
