

Snakes: Ecology and Behavior

Filesize: 8.69 MB

Reviews

These sorts of ebook is the best publication accessible. It is amongst the most amazing ebook i actually have read. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Jace Gusikowski IV)

SNAKES: ECOLOGY AND BEHAVIOR

The Blackburn Press, United States, 2003. Paperback. Book Condition: New. 218 x 147 mm. Language: English
Brand New Book ***** Print on Demand *****.This book, first published in 1993 and here reprinted with a new foreword by the authors, is still the most comprehensive survey of snake biology available in a single volume. Authoritative and comprehensive in scope, this important book offers herpetologists, biologists and others interested in the study of snakes a broad survey of snake ecology and behavior, as well as extensive coverage of the literature in bibliographic form. Featuring contributions by leading experts, this definitive reference identifies current areas of research in snake biology. It reports on exciting developments in population genetics, neurobiology, functional morphology, behavioral ecology, evolution, thermoregulation, foraging ecology, sexual dimorphism and conservation strategies. I strongly recommend this book to anyone conducting or planning to conduct research on snakes. It is certainly a must for any graduate student designing a laboratory or field study on snakes. The Quarterly Review of Biology Anyone planning to study snake biology will benefit from this book. Southwestern Herpetologists Society Dr. Richard A. Seigel became interested in herpetology while an undergraduate at Rutgers University, where he received his B.A. in Zoology and Physiology in 1977. He continued his work with amphibians and reptiles while getting his M.S. in Biological Sciences from the University of Central Florida in 1979 and his Ph.D. from the University of Kansas in 1984. He is currently Full Professor and Chair of the Department of Biological Sciences at Towson University in Maryland. Dr. Siegel's primary research interests are in the population ecology and conservation biology of amphibians and reptiles. He has published over 50 peer-reviewed papers and has co-authored or edited four texts on the ecology and biology of snakes. From 1993-2000, he was the...
