Dimensions: 9.0in. x 6.0in. x 0.5in.Extracts from the PREFACE: The volume of which the following pages are a translation, has been adopted by the University Commission at Paris among their prizebooks, and has reached an eighth edition. Perhaps these facts speak sufficiently in its favor; but as translator, and to some extent editor, I wish to add my testimony to the great charm as well as merit of the little work. I sat down to it, I must own, with no special predilection in favor of the subject as a suitable one for young people; but in the course of the labor have become a thorough convert to the authors views that such a study--perhaps I ought to add, so pursued as he has enabled it to be--is likely to prove a most useful and most desirable one. The precise age at which the interest of a young mind can be turned towards this practical branch of natural history is an open question, and not worth disputing about. It may vary even in different individuals. The letters are addressed to a child--in the original even to a little girl--and most undoubtedly, as the book stands, it is fit for any childs perusal who can find amusement in its pages: while to the rather older readers, of whom I trust there will be a great many, I will venture to say that the advantage they will gain in the subject having been so treated as to be brought within the comprehension and adapted to the tastes of a child, is pretty nearly incalculable. The quaintness and drollery of the illustrations with which difficult scientific facts are set forth will provoke many a smile, no doubt, and...
